Athletes/Parents:
We are using University Athlete to provide electronic recruiting rosters to college coaches. College coaches use the UA mobile app at the event to find and evaluate athletes with the custom schedule feature. They upload their work to their online account and manage recruits from there.

UA obtains their rosters directly from (Registration system – AES, SportWrench, TM2Sign). Sometimes there can be errors in the rosters, but your free UA Athlete profile will always overwrite incorrect data. Log in to your free UA Athlete profile 1-2 weeks before this event and check two things:
1. That you are listed in the roster (on the Roster tab)
2. That the following critical information is correct: graduation year, scholarship status, email, and phone number

To register for your profile: https://universityathlete.com/#/registration/athlete
To log in to your profile: https://universityathlete.com/#/login

College coaches:
We are using University Athlete to provide electronic recruiting rosters and schedules in their easy to use University Athlete Recruiter app (available on iOS and Android devices). Log in to your UA account to purchase the event packet 1-2 weeks prior to the event.
